OBJECTIVE

To advance my career with a leading organization that will utilize my extensive computer science and full stack development knowledge while also allowing me to develop further as a professional

Results-driven Blockchain Developer highly regarded for developing applications which meet and exceed demanding corporate and client requirements. Sought for superb analytical skills and creative problem-solving using a combination of industry standard and cutting-edge technologies, delivering clean, well-structured code. Skillset to work compatibly with clients to understand requirements and develop products that exceed quality expectations with on-time delivery. Exceptional training and academic qualifications, currently pursuing a B.Sc. in Computer Science and Entrepreneurship from IDC Herzliya.

CORE COMPETENCIES

- Web Development
- Blockchain Development
- Application Programming
- Quality Assurance
- Performance Optimization
- Technical Solutions
- Feature Design
- Application Integration
- Project Management

PROFESSIONAL EXPERIENCE

[DON-KEY FINANCE](#), TEL AVIV, ISRAEL, FEBRUARY 2022 – PRESENT

FULL-STACK DEVELOPER

- Developing a scalable blockchain indexing tool that will replace a third-party alternative, leading to a reduction in cost and improvement in performance.
- Implementing a GraphQL API that will serve indexed data to the client.

NIFTABLE, TEL AVIV, ISRAEL, APRIL 2021 – FEBRUARY 2022

CO-FOUNDER, CTO

- Spearheaded the development of a platform for creating and trading fractional shares of NFTs.
- Delivered several presentations to prospective investors for the purpose of securing investment.
- Designed and developed the landing page and blog using React and multiple AWS services.

ISRAELI LEGAL TECH ACCELERATOR, TEL AVIV, ISRAEL, NOVEMBER 2020 – FEBRUARY 2021

FULL-STACK DEVELOPMENT INTERN

- Led the continued development of a Node.js REST API service which will be used by the incoming legal-tech startup cohort to retrieve historical legal documents and data.
- Oversaw operations to build a React front-end prototype intended to showcase potential uses for a legal document REST API.
- Piloted efforts to refactor legacy code to improve performance and ensure compatibility with current software.

KROMAD DESIGN STUDIO, MONTREAL, CANADA, MAY 2019 – AUGUST 2019

FRONT-END WEB DEVELOPER

- Governed the design and development of custom ecommerce websites, leveraging Shopify and WordPress frameworks to reduce development time and achieve overall vision.
- Pioneered initiatives to optimize new and existing websites for search engine ranking, mobile usability, mobile responsiveness, and loading time.

- Crafted and produced website proposals customized for the needs of prospective clients, successfully demonstrating the impact and value-add to their business.
